You have been referred to an American Board Certified Implantologist. Implant Dentistry is not yet recognized as a specialty in British Columbia (*for further information, please refer to [www.ABOI.org](http://www.ABOI.org)*).

The ABOI/ID Diplomate designation symbolizes the highest level of competence in implant dentistry. Certification by the ABOI/ID attests to the fact that a dentist has demonstrated knowledge, ability, and proficiency in implant dentistry through a rigorous examination process.

Payment in full is expected at time of your visit and for your convenience, cash - direct payment, credit cards and cheques are accepted. Dental implant services are rarely covered by dental insurance plans. As a service to you we will be happy to complete any insurance forms required when treatment has been completed.
